

A B Engineering (Laurencekirk) Limited

QUALITY POLICY

AB Engineering (Laurencekirk) Limited provides **engineering solutions including welding, fabrication, machining, refurbishment and project management of blasting, painting and coatings to the global energy sector.**

We specialise in the fabrication of structural steelwork and pipework to clients drawings and specifications.

We are committed to providing excellent quality for our clients through commitment to satisfy applicable requirements, compliance and ensuring the continual improvement of our management systems which are compliant with the requirements of ISO9001:2015.

Established in 2004 we aim to provide the customer with high quality services in a timely manner from our local base in the North East and ensure continuity of service by establishing and reviewing objectives at the management review meeting.
